Dear Mr. Weisberg,

I just finished reading High Treason by Robert Groden. Among his sources, he listed Whitewash I-IV and Oswald in New Orleans-The Case for Conspiracy with the CIA - all of which he recommended very highly. I checked Whitewash Vol. I out of a library here in Independence (a very fine book, I might add!). But I am interested in obtaining copies of all this material for my own library. Are they available for purchase at this time?

I was seven years old when President Kennedy was assassinated. But I remember it quite vividly, maybe because I was home sick from school that day and watched everything on TV from the very beginning. Since then I have watched things unfold and have read about & studied this case a great deal. I have been familiar with your work for a number of years. I admire you much not only for your incredible research but for your incredible courage as well. Thanks loads for your help!

Sincerely,
Rebecca Jones
